Policy On Risk Management

BACKGROUND

This document lays down the framework of Risk Management at High Street Filatex Limited (hereinafter referred to as the 'Company' or 'HSFL') and defines the policy for the same. This document shall be under the authority of the Board of Directors of the Company. It seeks to identify risks inherent in any business operations of the Company and provides guidelines to define, measure, report, control and mitigate the identified risks. Risk management policy and processes will enable the Company to proactively manage uncertainty and changes in the internal and external environment to limit negative impacts and capitalize on opportunities.

OBJECTIVE

The objective of Risk Management at HSFL is to create and protect shareholder value by minimizing threats or losses, and identifying and maximizing opportunities. An enterprise-wide risk management framework is applied as effective management of risks is an integral part of every employee's job. This policy is based on philosophy of achieving substantial growth while mitigating and managing risks involved.

The Company is prone to inherent business risks such as competitors' of the business and other internal and external factors affecting the business. This document is intended to formalize a risk management policy, the objective of which shall be identification, evaluation, monitoring and minimization of identifiable risks.

This Policy represents the basic standards of Risk Assessment to be followed by the company. Changes in the Policy will become effective upon approval by the Board of Directors of the Company. All relevant employees must be thoroughly familiar or made familiar with it and make use of the material contained in this Policy.

The specific objectives of the Risk Management Policy are:

- ❖ To ensure that all the current and future material risk exposures of the company are identified, assessed, quantified, appropriately mitigated, minimized and managed i.e to ensure adequate systems for risk management.
- ❖ To establish a framework for the company's risk management process and to ensure its implementation.
- ❖ To enable compliance with appropriate regulations, wherever applicable, through the adoption of best practices.
- ❖ To assure business growth with financial stability.

DISCLOSURE IN BOARD'S REPORT

The Board of Directors report must include a statement indicating development and implementation of a risk management policy for the company including identification of elements of risk, if any, which in the opinion of the board may threaten the existence of the company.

HSFL, being a listed company is required to adhere to the regulations made both by the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Where any stipulation is common between the regulations, more stringent of the two shall be complied with.

KEY DEFINITIONS

"Board of Directors" or "Board" in relation to a Company, means the collective body of Directors of the Company. (Section 2(10) of the Companies Act, 2013).

Risk Management

A. The company shall lay down procedures to inform Board members about the risk assessment and minimization procedures.

B. The Board shall be responsible for framing, implementing and monitoring the risk Management plan for the company.

Responsibility for Risk Management

Generally every staff member of the Organization is responsible for the effective management of risk including the identification of potential risks. Management is responsible for the development of risk mitigation plans and the implementation of risk reduction strategies. Risk management processes should be integrated with other planning processes and management activities.

Risk Factors

The objectives of the Company are subject to both external and internal risks that are enumerated below:-

External risk factors:

- Economic Environment and Market conditions
- Political Environment
- Competition
- Revenue Concentration and liquidity aspects
- Each business area of products such as socks, leggings, tights, wrist-band, head-band, knee cap and turnkey projects has specific aspects on profitability and liquidity. The risks are therefore associated on each business segment contributing to total revenue, profitability and liquidity. Since the projects have inherent longer time-frame and milestone payment requirements, they carry higher risks for profitability and liquidity.
- Inflation and Cost structure
